[Phys. Rev. Lett. 74, 750 (1995)]

Equation (4) was incorrectly printed. The correct version is

$$D(\mathbf{v}_n - \mathbf{v}_L)_\perp + D'\hat{\mathbf{z}} \times (\mathbf{v}_n - \mathbf{v}_L) + \rho_s \kappa \hat{\mathbf{z}} \times (\mathbf{v}_L - \mathbf{v}_s) = 0.$$

In addition, the journal name in Refs. [7], [8], [9], and [16] should be Physica B.

Also note that in the opening sentence the word "in" after "superfluid" should be deleted.
